

## **Motan Material Conveying, Storage and Drying System**

Except for the fines collectors which are aluminum all material handling components are stainless steel.

Four (4) 6.2 hp/4.6 kw 480/3/60 vacuum blowers

Four (4) 17 hp/12.7 kw 480/3/60 vacuum blowers

Seven (7) 6.5 hp 480/3/60 vacuum blowers

Four (4) 3.4 HP 480/3/60 vacuum blowers

Twelve (12) Aluminum pulse filter fines collectors

Five (5) Motan dryers

Four (4) 3000 lb. drying bins

Two (2) 600 lb drying bins

One (1) 2500 lb Drying bins

One (1) 1600 lb drying bin

Two compound blenders

One (1) Motan Metrolink Lexor Distribution System

Two (2) distribution manifolds with five (5) ports

One (1) distribution manifold with two (2) ports

Four (4) 1 ton hoist/trolleys for super sack bags

Four (4) storage conveying bins approximately 4,000 lb.

Four Yale (1) one ton hoist/trolleys for hanging super sacks

Four (4) storage distribution bins approximately 4,000 il.

Three 17 hp vacuum blowers with pulse filter fines collectors

2500 lb Metrolink drying bin

Two (2) 600 lb drying bins associated with two (2) compound blender

Two (2) Motan Compound blender with control unit (two 600 lb drying bins not shown)

Motan Distribution Manifold

One (1) seventeen hp and four (4) 6.2 hp vacuum blowers with three (3) aluminum pulse filter fines collectors.

Motan Dryer

Four (4) 3.4 hp vacuum blowers with three pulse filter fines collectors

Metrolink Luxor 1600 lb drying bin with control panel and Metrolink Distribution system

MetroLink Distribution Center

Motan 2500 lb drying bin with Motan diagnostic dryer Model # MDD 800 (480/3/60)

Three (3) 17 hp vacuum blowers, two (2) 6.2 hp vacuum blowers and three (3) pulse filter fines collectors

3000 lb Motan drying bin with two (2) Motan dryers

Motan dryer with 3000 lb drying bin
