## HERITAGE GLOBAL PARTNERS

12625 HIGH BLUFF DR # 305  
SAN DIEGO, CA 92130

This letter is to certify that on April 27<sup>th</sup>, 2019, we completed the preparation and pack up of the Bruker Avance console and Bruker Ultrashield 300 magnet. Magnet was already at room temperature. We rigged and **installed transit fixtures per Bruker guidelines** into the US 300 magnet and then placed magnet onto a shipping pallet. Console was also placed onto shipping pallet. All miscellaneous items were placed in a shipping create. All creates were then shrink wrapped.
